Sir:

RESPONSE A

Responsive to the Office Action dated June 4, 2003, (Paper No. 3), applicants hereby amend claims 1-4 and request reconsideration of the rejection of claims 1-6 in view thereof. The amendments are provided in the revised amendment format as stated in the announcement by the Office of Patent Legal Administration at the USPTO internet website. In as much as the amendments are believed to alter the scope of the claims and may result in the need for the examiner to consider additional material prior art than previously considered, a supplemental prior art statement is enclosed. The inventorship of the present claims also needs to be corrected. A signed petition by the newly added inventors, a declaration by all of the inventors, and the written consent of the assignee to the above change are enclosed.
